

133<sup>RD</sup> ANNUAL  
GEORGE WASHINGTON'S  
BIRTHDAY CELEBRATION

*Keynote Speaker*  
**MARC WORTMAN**

*Author of*  
"ADMIRAL HYMAN RICKOVER: ENGINEER OF POWER"

THURSDAY, MARCH 3 | 11:30 A.M.

You're invited to join us for the 133<sup>rd</sup> annual George Washington's Birthday Celebration when the Union League Club of Chicago, in partnership with the USS Hyman G. Rickover (SSN-795) Commissioning Committee, welcomes Marc Wortman, author of the new, critically-acclaimed biography, "Admiral Hyman Rickover: Engineer of Power."

Patriotic melodies will fill the air as we celebrate the Father of Our Country through the prism of Admiral Rickover, the Father of the nuclear-powered Navy. The celebration commences with the Presentation of Colors by the Color Guard of the Chicago Public School's own Admiral Hyman G. Rickover Naval Academy. Captain Billy Franklin, Commander, Navy Reserve Region Readiness and Mobilization Command, Great Lakes, will report on the construction progress of the Navy's new nuclear-powered fast attack submarine, the USS Hyman G. Rickover (SSN-795). Wortman will then sit down with Dr. Charles Lipson,

Professor *Emeritus* of Political Science at University of Chicago, to share his discoveries and insights into the man who catapulted the U.S. Navy into the age of nuclear power. Audience Q&A will follow.

The event will begin with a reception at 11:30 a.m., during which books will be available for purchase and signing. The luncheon and formal program will commence at 12:00 p.m. Dress Code: Business Casual

Members of the Union League Club may register online at: [www.ulcc.org](http://www.ulcc.org)
